An Ongoing List Of Things That Telepathy Can Not Do

1. Can't make people go to sleep (put them to sleep)
2. Can't increase peoples alertness (keep them awake)
3. Can't cause involuntary precise movements of hands, fingers, arms etc
4. Can't cause "hot flushes"
5. Can't make you walk funny unusual
6. Can't increase the rate and extent of saccades
7. Can't cause twitches
8. Can't 'punch' you in the mouth, so you bite your tongue or cheek
9. Can't torture you whilst trying to run, causing inflexibility, pain and lack of co-ordination
10. Can't interrupt or stop the natural movement of your diaphragm, preventing breathing, whilst running
11. Can't cause heart 'palpitations'
12. Can't manipulate sentience to drive you to do something
13. Can't make you hang out (withdrawal symptoms) for cigarettes
14. Can't supersede, undermine, subjugate your freewill
15. Can't insert air into your intestinal tract, or and make you fart
16. Can't trick you into going somewhere for some reason
17. Can't control other independent people, like your next door neighbors, or the Police
18. Can't flatten the 99% full battery of your cellphone in less than 4 seconds
19. Can't see your internet banking passwords, and all other passwords
20. Can't manipulate your fingers to hit the wrong keys (qwerty or cellphone)
21. Can't manipulate you hand so you close the file down when you were trying to save your work
22. Can't lift your testicle up into the scrotum (whilst running)
23. Can't remove perception of all tactile sensation in your penis
24. Can't make you self harm (excluding suicide of course, which isn't self harm anyway, some say)
25. Can't see through walls, over distances exceeding 2 Km
26. Can't do any of the normal things to people; thought insertion, memory blocking, thought blocking
27. Definitely can't do word insertion (see above *infra*)
28. Can't take the drugs away (effect vis-a-vis affect)

17/11/23
